TO WHOSOEVER IT MAY CONCERN

This is to state that **Ms. Ruba Surve** has successfully completed the Curricular Orientation Program at my laboratory for a period of 30 days.

In this program she learnt about the principles, procedures and working of various laboratory instruments and various tests that are routinely carried out in a laboratory.

Her attentiveness, sincerity and grasping power throughout this program was very commendable.

I wish all the best of luck for all her future endeavors.
