Additional information	<p>1. Selecting a Topic and Conducting Preliminary Research:</p> <p>i. Topic Selection: The first step in writing a research article is selecting a relevant and focused research topic. Participants were encouraged to choose a topic that interests them and has sufficient available literature to support their research.</p> <p>ii. Preliminary Research: Before diving into the actual writing, participants should conduct preliminary research to understand existing work in the field. This helps refine the research question and identify gaps in the literature that their article could address.</p> <p>2. Structuring the Research Article: Students were learn what content should in abstract, Introduction, Literature Review, Methodology, Results & Discussion, Conclusion and References.</p>
