Additional information

The Department of Physics inaugurated the *Photon Club* for the academic year 2025–26 with the aim of nurturing curiosity and enhancing scientific skills among students. The program began with a formal welcome of the dignitaries and faculty members.

The Head of the Department addressed the gathering and highlighted the purpose of forming the Photon Club as a student-centric initiative to promote active learning, creativity, and collaboration in Physics. The inauguration was carried out by lighting the ceremonial lamp followed by an introductory session about the planned activities of the club such as seminars, workshops, quizzes, model exhibitions, poster presentations, and industrial interactions.

Student representatives of the club were introduced, and their roles and responsibilities were explained. Faculty coordinators guided students about how the club will function throughout the year to strengthen both theoretical understanding and practical exposure.
