

Activity Report

<i>Name of activity</i>	Faculty Development Training — Interactive session on Active Learning Pedagogies
<i>Objectives of the activity</i>	● To introduce faculty to ideas and practices that enhance active learning in courses being taught
<i>Organizing department/s</i>	Department of Biotechnology and Microbiology
<i>Collaborative institute</i>	—
<i>Date</i> <i>(DD/MM/YYYY)</i>	12/07/2025
<i>Venue</i>	Microbiology laboratory, B.N. Bandodkar College of Science
<i>Mode</i>	Offline
<i>Details of Resource person</i>	Dr. Meghana Joshi, Founder, The Innovator's Hub, Mumbai; Former Director and faculty for Biocon-KGI certificate programs in Biosciences based at KGI, California, USA
<i>Key Participants</i>	Staff members of Department of Biotechnology and Microbiology
<i>Remarkable outcomes/ key take-away messages</i>	● Participants understood importance of active learning pedagogies as compared to lecture-oriented approaches in promoting learning ● They were introduced to key pedagogical principles that can be used to promote student engagement and active learning ● Explored how Bloom's Taxonomy can be applied to craft precise, measurable, and outcome-driven learning objectives ● Learnt to construct assessments that are varied, balanced, and include formative and summative elements ● understood how learning outcomes, assessment methods, and instructional activities can be aligned while designing and conducting a course

Details of participants	Teaching staff
Total Number	8
