Remarkable outcomes:	- During the under graduate study, students are required to acquaint with laboratory techniques. To cater this requirement - Department has taken an initiative by conducting this Bridge Course. Under this course, First year students were learned about effective use of glassware and chemicals for their regular practicals. - Use and functioning of the simple and compound microscopes was also part of this course. - They were also introduced to different instruments in the laboratory. Analysis and measurement of different biomolecules could be done by using these instruments.
